DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 2, 41-43 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, Sawyer and Peyrovian teach an apparatus as discussed in claim 1 except the following features. The prior art does not teach predetermining information on a schedule of usage of a transmission band by the beginning of a predetermined term, another piece of information on a schedule of the transmission band which is available to be assigned at the time of the beginning of the predetermined term, another piece of information on a schedule between the beginning and end of the predetermined term defining a duration of the predetermined term where the transmission band is available to be partially assigned or partially exchanged by the beginning of the predetermined term and maintaining the above information constant during the entire communication period. The prior art also does not teach transmitting the past partial assignments and partial exchanges to each respective terminals within an announcement distance during an announcement time interval.

This taken with all other limitations of the dependent claims is considered novel and non-obvious over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
